TNT COACHES

As we head into our 6th season at TNT All Stars we are so grateful to have such a wonderful group of experienced and dedicated coaches. Our coaches go above and beyond the expectations of our athletes and consistently help them grow into successful young adults. At TNT it is more than just coaching or cheerleading, we are all about creating a family!

Here at TNT your athlete will train in a safe and supportive environment all while having fun! Our coaches are passionate for the growth of cheerleading and have all trained at an elite level. Our program culture promotes positive role models and our coaches continuously assist athletes in achieving their goals and dreams.

Our coaches are annually certified in first aid and credentialed through the international governing body for cheerleading (IASF). We also go above and beyond by training our coaches through an intensive in house training program. This allows for consistency in technique and skill building within all of our teams.

TNT's number one priority is child safety. Our coaches are trained in child protection at the beginning of every year. We have a member's protection plan in place that ensures the safety of our athletes, creating WA's first "child safe" cheerleading program.

We also have a junior coaching program for our younger athletes to promote growth in our cheerleading community. This provides endless opportunities for future jobs in our quickly growing sport!

I love coaching at TNT because it allows me to connect and bond with the younger athletes in our program. I love giving kids the opportunity to fall in love with the sport that has shaped who I am today! I am passionate for cheerleading and excited to share my love for the sport through coaching.
